Claims 2-5 are rejected under 35 U.S.C. 103(a) as being unpatentable over Shiokawa et al (U.S. Patent No. 5,034,524) in combination with Barringer et al (U.S. Patent No. 5,945,445) for the reasons set forth in the Office Action of July 12, 2004.

Applicant's arguments filed March 4, 2005 have been considered but have not been found persuasive.

Applicant contends that one cannot predict from general statements what compounds will work for what purpose. This argument has not been found persuasive since the compounds encompassed by the instant claims are known insecticidal agents.

In response to applicant's argument that even if one were to try and force the two references together, one skilled in the art could only come up with the treatment for pine trees, the fact that applicant has recognized another advantage which would flow naturally from following the suggestion of the prior art cannot be the basis for patentability when the differences would otherwise be obvious. See *Ex parte Obiaya*, 227 USPQ 58, 60 (Bd. Pat. App. & Inter. 1985). Note that the instant claims are directed to compositions containing two active agents and not to methods for controlling fleas. The motivation for combining the two active ingredients suggested by the cited prior art does not have to be the same as motivation used by applicant. Therefore, the instant composition claims are still deemed to be prima facie obvious over the cited prior art.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
